

# SPRING ITINERARIES

# Spring

## Day 1:

With the warmer days of spring, comes the annual glacial melt. Visit any of the nearby waterfalls to see them in their most glorious, roaring state.

## Day 2:

The RW Starratt Wildlife Area (also known as Cranberry Marsh) has a 6km loop trail that will give you ample opportunities to see the various birds and wildlife of the area. Two viewing towers (not accessible friendly) take you high above the marsh for an all-encompassing view. Take in the sights along the boardwalk section of the trail overlooking the water.

## Day 3:

Embrace your inner wrangler and book a guided horseback ride. 1 hour, 2 hour, and multi day options available.

## Day 4:

The cross-country mountain bike network on Swift Mountain tends to get the early spring sun, and as a result, is one of the first areas to melt to be free of snow. Get a good start to your bike fitness by pedaling one of the bike trails.

## Day 5:

After all of that hard work, take care of yourself with a massage & facial. Locally created skin-care products are available for purchase, so you can be reminded of the mountains year-round.
